Prizes, Honors & Awards

Elected President of the American Political Science Association, 3 year term (President-Elect, President, and Past President), 2019-2022. My priorities for APSA center around promoting pluralism. The theme of the 2021 Meeting, APSA Presidential Task Force, edited volume on these topics, and APSA committee work are ways to move this priority forward. Specifically, in the midst of political, economic, and social upheaval that portends significant transformations across the globe, the answers to what these global shifts mean for governments, nations, communities and individuals are neither straightforward nor obvious, and the tools necessary to examine them are varied and expansive. More than ever, political science is positioned to address pressing questions of this moment and beyond, provided we embrace and promote the rich intellectual pluralism of our discipline—in methodology, methods, behavior, institutions, and perspective. In addition, the diversity of our scholars in terms of racial and ethnic background, nationality, gender, sexuality, and gender expression, institutions and professional career stage contribute to knowledge and ways of understanding the world. Our association will be more vibrant when it is inclusive of all political scientists working on critical questions whose careers are in industry, government, nonprofits and academia, re: career diversity. My goal is to further bringing people together to celebrate the heterogeneity of approaches and to advance topics of diversity and inclusion.
