

## State Government Internship Program

### About the Office

The Ohio State Office of Government Affairs works to build and support productive relationships with public officials and their staff. The team works regularly with members of Congress, Governor's Office, Mayor's Office, Ohio General Assembly, Columbus City Council, and other federal, state, and local agencies on legislative, regulatory, and budget actions impacting the University and the higher education community.

### About the Internship

The State Government Internship Program is coordinated through a partnership of The Ohio State University Office of Government Affairs and Department of Political Science. It provides sophomores, juniors, and seniors with a semester-long internship with the Ohio General Assembly. Students selected for the program will be placed in the office of a State Representative, State Senator, or caucus policy office in downtown Columbus and have the option of earning 3 hours of credit for their work. The program also offers 3 seminars focusing on distinct aspects of working in state government.

Assignments vary from office to office, but students can expect to work on things like assisting with the resolution of constituent issues, identifying constituent and community achievements for recognition, conducting research, drafting letters and memos, and attending committee hearings and sessions. In addition, the program provides the opportunity for exposure to policymaking in action and the chance to interact with public officials and government staff. Transportation is not provided; however, the Ohio Statehouse is a stop on several COTA bus lines, which requires only an active student BuckID.
