We would like to ask you a few questions about your own political views. If there's ever a question that you don't have an opinion on or don't know the answer to, just tell me "no opinion."

First, I'd like to get your feelings toward some of our political leaders and other people who are in the news these days.

I'll read the name of a person and I'd like you to rate that person using something we call a feeling thermometer. You can choose any number between 0 and 100. The higher the number, the warmer or more favorable you feel toward that person, the lower the number, the colder or less favorable. You would rate the person at the 50 degree mark if you feel neither warm nor cold toward them.

If we come to a person whose name you don't recognize, you don't need to rate that person. Just tell me and we'll move on to the next one.
